i. General

i.i Foreword

This fee schedule sets forth the fees applicable to the services and products of LuxCSD to its customer's account holders.

For the purpose of this fee schedule, LuxCSD refers to:

LuxCSD S.A. having its registered office located at 42, avenue J-F Kennedy, L-1855 Luxembourg, Grand Duchy of Luxembourg and registered with the trade and companies register of Luxembourg under registration number B.154.449.

i.ii Transparency

This fee schedule is structured to ease customers invoice reconciliation. A specific product reference, called invoice code in this document, independent from the tariff section numbering will be visible both on the tariff and on the invoice. The invoice codes will be added to this document as they become available.

i.iii Validity

This fee schedule is valid from 1 August 2018 until further notice. LuxCSD reserves the right to amend to and/or supplement this fee schedule. Changes to the fee schedule are communicated to customers via customer email alert, upon subscription, and are available on our website, www.luxcsd.com.

i.iv Payment currency

All fees are expressed and invoiced in EUR.

i.v Payment terms

Invoicing is carried out monthly. LuxCSD advises customers of the total amount of fees payable at the beginning of the month following the invoice period. All invoices concerning LuxCSD's fees, commissions and other charges for services rendered shall be paid within 15 days after the invoice date concerned. Interest, calculated on the outstanding amount will accrue on overdue invoices from the due date until payment.

i.vi Applicable law and jurisdiction

This fee schedule for the services provided by LuxCSD S.A. shall be governed by and construed in accordance with the laws of the Grand Duchy of Luxembourg. Any dispute arising in relation to this fee schedule for the services provided by LuxCSD S.A. shall be subject to the exclusive jurisdiction of the competent Luxembourg courts.

i.vii Customer accounts

This fee schedule applies to accounts opened with LuxCSD S.A. These are:

- Accounts settling on T2S (48 -series accounts)
- Accounts not settling on T2S (43-series accounts)

i.viii Instruments

For pricing purposes, instruments are grouped into three categories:

- Debt: Fixed rate eurobonds, fixed rate convertibles, other fixed rate bonds, floating rate notes, certificates of deposit (CDs), short term notes, euro commercial paper and all other bonds;
- Equities: Equities, depository receipts, warrants and rights;
- Investment funds: These are featured by distinct complexities in process that depend on the fund structure. In order to account for these distinct complexities, LuxCSD classifies funds into Fund Market Groups (FMG):

LuxCSD - fee schedule

FMG A (simple investment funds), FMG B (complex mutual funds) and FMG C (alternative investment vehicles). The Fund Market Group classification does not apply to LuxCSD issued funds.

i.ix Applicable law and jurisdiction

This fee schedule for the services provided by LuxCSD S.A. shall be governed by and construed in accordance with the laws of the Grand Duchy of Luxembourg. Any dispute arising in relation to this fee schedule for the services provided by LuxCSD S.A. shall be subject to the exclusive jurisdiction of the competent Luxembourg courts.

ii. Main principles

ii.i Family groups and account grouping

ii.i.i Ownership and control criteria

The notion of family group and account grouping plays an important role in the determination of fees.

If the parent company holds an account either with LuxCSD, Clearstream Banking Luxembourg S.A. or Clearstream Banking AG, the family group includes the parent company and all other affiliates, that are owned 50% or more by the parent and directly or indirectly controlled. Customers' accounts are automatically allocated to a family group. Family group updates are reflected in LuxCSD as of the invoicing month following the ownership/control structure change.

A family group includes all customer accounts held with LuxCSD, Clearstream Banking Luxembourg S.A. or Clearstream Banking AG and meeting the ownership or control criteria.

ii.i.ii Applicable Safekeeping prices

Accounts with LuxCSD S.A. will be subject to safekeeping prices as defined in "[Annex 1: Settlement and safekeeping prices](#)".

ii.i.iii Family group discount scheme for safekeeping fees

For the same family group, all markets subject to safekeeping prices defined in "[Annex 1: Settlement and safekeeping prices](#)" will qualify for the below family group discount scheme, with the exception of LuxCSD issued securities. Each family group has its own specific sliding scales. The higher the family group, the more competitive the sliding scale becomes.

Group	1	2	3	4	5	6	7	8	9
Family group deposit AUC volume (EUR billion)	0-2.5	2.5-7.5	7.5-15	15-25	25-50	50-100	100-150	150-220	220-300
Group	10	11	12	13	14	15	16	17	18
Family group deposit AUC volume (EUR billion)	300-380	380-450	450-520	520-600	600-700	700-800	800-920	920-1050	>1050

Investment funds in Fund Market Groups B and C are not included in this calculation, and will form their own family group.

ii.i.iv Account grouping

Unless otherwise specified, where digressive prices apply to a given product in the present tariff, activity volumes of the entire family group are considered to calculate the family group average price. Each individual account that belongs to the family group will benefit from the family group average price.

ii.i.v Volume discount

Volume discounts displayed in this fee schedule will be provided either through sliding scale or step-tiered scale as applicable.

Sliding scale: the quantity of all accounts is aggregated on family group level. Based on the family group volume, an average price is calculated by applying the respective ranges of the sliding scale. In the following pages of the fee schedule, sliding scales are always displayed with volume bands using "From" and "to".

Step-tiered scale: the quantity of all accounts is aggregated on family group level. As soon as a certain volume band is reached, the price corresponding to that volume band will be applied to the entire volume. In the following pages of the fee schedule, step-tiered scales are always displayed with volume bands using "under" and "over". "Over" must be understood as "over or equal" while "under" must be understood as "strictly under".

Unless otherwise specified in this fee schedule, prices are meant to be sliding scale.

1. Safekeeping services

1.1 Safekeeping fee and securities valuation principles

- Sliding scales apply to the calculation of fees for safekeeping services.
- Safekeeping fees are calculated monthly and are based on the daily average volume of assets under custody. Positions are fixed at the end of each settlement day.
- Valuation of instruments other than debt as defined in [section i.viii](#) : the volume of assets under custody is obtained by multiplying the market price by the quantity held. Market prices are collected from recognised data vendors or alternatively from the local agent or CSD appointed by Clearstream Banking. They are applied on a daily basis. Where no market price is found, LuxCSD will use the issue price. Where no issue price is found, LuxCSD will use a default issue price of 1.
- Valuation of debt instruments: at nominal value or at unit multiplied by the nominal value per unit (NVU).
- The assets under custody value of non-EUR securities is converted into EUR at the exchange rate prevailing at the end of the month.
- All safekeeping prices are quoted in basis points per annum (1 bp = 0.01 percent = 0.0001).
- Monthly safekeeping fees are calculated as follows:

$$\frac{\text{average daily value of securities in the month} \times \text{number of calendar days in the month} \times \text{Rate in bp}}{360}$$

1.2 Safekeeping prices

Safekeeping is priced by market and by instrument. Details of safekeeping prices can be found in ["Annex 1: Settlement and safekeeping prices"](#) and ["Annex 2: Calculation examples"](#). For investment funds where LuxCSD acts as the issuer CSD, Fund Market Group classification does not apply.

1.2.1 Minimum safekeeping fee per security

This section applies to all LuxCSD accounts.

A monthly minimum safekeeping fee is charged per security for which a position is held end of day during the month.

If the safekeeping fees payable for a given security on an account for a month are less than a predefined amount, an additional charge is booked so that the minimum amount is met for each security position.

Invoice code	Service description
CB010*	Minimum security safekeeping fee per month See "Annex 1: Settlement and safekeeping prices"

1.2.2 Minimum safekeeping fee per account

This section applies to all LuxCSD accounts.

A monthly minimum safekeeping fee is charged per account. If after having considered the minimum safekeeping fee per security, the safekeeping fees payable on an account for a month are less than the minimum safekeeping fee per account, an additional charge is booked so that the minimum amount is met. In case there is no custody activity, this minimum fee is waived.

Invoice code	Service description	Price (EUR)
CB010*	Minimum monthly safekeeping fee per account	250.00

2. Settlement services

2.1 Settlement fees for accounts settling on T2S

This section applies to LuxCSD 48-series accounts.

2.3 Minimum settlement fees

This section applies to all LuxCSD accounts.

If the settlement fees payable on an account for a month are less than the minimum account settlement fee, an additional charge is booked so that the minimum amount is met. In case there is no settlement activity, this minimum fee is waived.

Invoice code	Service description	Price (EUR)
CB020*	Minimum account settlement fee per month	125.00

3. Custody administration services

Custody administration fees are unbundled from LuxCSD's safekeeping fees.

General principles for the charging of custody administration services are:

- The charging of mandatory corporate events (compensations, cash payments, redemptions, stock dividends etc.) is based on the number of executed events, regardless of the number of internal bookings involved.
- The charging of voluntary events, for which customer instructions are required, is based on the number of customer instructions. In case of an instruction being cancelled upon customer request, the initial instruction will be charged whereas there is no fee for the cancellation instruction.
- If a coupon or a dividend payment is reversed, the related event fee is cancelled.
- If a coupon, dividend or redemption payment regarding International securities is renounced, the required renunciation message will be subject to an additional fee as shown in [Chapter 6.2](#).
- Custody administration services are charged on a per account basis.

No further charges are levied for agenda distribution, additional documents, POA maintenance, the ordering of entrance cards and communication of the meeting results.

4. Investment fund services - CFF and Vestima

4.1 Fund issuance through CFF

This section applies to all LuxCSD accounts.

4.1.1 STP fund issuance

The STP fund issuance instruction price is charged to Fund Issuance Accounts and includes the following service components:

- Automated issuance and cancellation of investment fund shares in relation to primary market transactions and transfers on the register of shareholders;
- Comprehensive standard information provision services defined in "Information provision services" on page 16, including data transport;
- Transparency reporting

	20,001 30,000	11.00
	> 30,000	10.00

4.1.2 Non-STP fund issuance

In order to deliver a high degree of service automation to fund investors, LuxCSD monitors operational performance indicators on a continual basis.

Order handling agents are recommended to meet STP compliance levels in the areas of Custody administration services and Order lifecycle management.

- STP custody administration provides a daily formatted, electronic transactions and holding report plus the timely and consistent delivery of corporate action notifications.
- STP order lifecycle provides an order acknowledgement with trade date information and order confirmation via the Vestima browser.

The following non-STP surcharges apply per fund issuance instruction:

Invoice code	Service description	Price (EUR)

5. Information provision services

5.1 Reporting

Report charges are based on the following principles:

- A report is defined as information relating to one account number only. If a report contains information for more than one account, the report charge is applied per account.
- All reports and sub-reports have a per-report and a per-item fee.
- An item is defined as a transaction or balance in a report.
- The report fee is applicable only if the report contains at least one item.

Annex 2: Calculation examples

Disclaimer: All examples are for illustration purposes only.

Safekeeping services (section 1)

These examples are applicable to LuxCSD 48 and 43-series accounts.

Customer A holds the following securities in its account

Holding of customer A	Average deposit value LuxCSD account (EUR million)	Average deposit value ICSD account (EUR million)	Holdings of family group XY
LuxCSD debt	2,000	1,500	5,000
Italian debt	500	2,000	3,000
Total	2,500	3,500	8,000

Step 1: Identify the overall family group to which the customer belongs

Customer A belongs to Family group XY whose group deposits total EUR 6 billion across all markets. Note that the Holdings of customer assets (see LuxCSD debt in the table above) in the LuxCSD market on LuxCSD accounts are not included in this calculation. This means that Family group XY is allocated to family group 2:

Group	1	2	3	4	5	6	7	8	9
Family group deposit AUC volume (EUR billion)	0-2.5	2.5-7.5	7.5-15	15-25	25-50	50-100	100-150	150-220	220-300
Group	10	11	12	13	14	15	16	17	18
Family group deposit AUC volume (EUR billion)	300-380	380-450	450-520	520-600	600-700	700-800	800-920	920-1050	>1050

Step 2: Calculate the fee per market/per instrument

Separate all deposits by instrument and market. Calculate the safekeeping fees based on the relevant sliding scale for the specific market/instrument, within the relevant price column for the group, using the volumes of the group for a month with 30 days.

Example 1 - Lux CSD market - Debt

1. Calculation on LuxCSD account

Family group AUC volume (EUR million)		Group deposit	Deposit (EUR million)	Monthly fees (EUR)
From	To	N/A		
0	1000	0.75	1,000	6,250.00
1000	2000	0.70	1,000	5,833.33
Total			2,000	12,083.33
Average rate				0.725
Marginal rate for new deposits				0.65

Calculation formula applied:

$$\frac{\text{average daily value of securities in the month} \times \text{number of calendar days in the month}}{360} \times \text{Rate in bp}$$

2. Calculation on ICSD account

Family group AUC volume (EUR million)		Group deposit	Deposit (EUR million)	Monthly fees (EUR)
From	To			
		2		
0	1000	0.79	1,000	6,583.33
1000	2000	0.74	500	3,083.34
Total			1,500	9,667.67
Average rate				0.773
Marginal rate for new deposits				0.74

Example 2 - Other markets - Italian debt

Family group AUC volume (EUR million)		Group deposit	Deposit (EUR million)	Monthly fees (EUR)
From	To			
		2		
0	750	1.38	750	8,625.00
750	2000	1.27	1250	13,229.17
2000	6000	1.08	1000	9,000.00
Total			3000	30,854.17
Average rate				1.234
Marginal rate for new deposits				1.08

Step 3: Calculate the total safekeeping fees per account

Based on the average bp calculated in Step 2, the total fee for customer A can be calculated by using the holdings per account:

Market	Average price	Holdings per account	Fee per account
LuxCSD (48/43-series accounts)	0.725	2,000	12,083.33
LuxCSD (ICSD accounts)	0.773	1,500	9,668.61
Italian debt (48/43-series accounts)	1.234	500	5,142.36
Italian debt (ICSD accounts)	1.234	2000	20,569.44

Note: In the overall assets for LuxCSD debt on LuxCSD ICSD accounts, there is one security, where the calculation of the monthly fee results in 0.56 EUR. However, the minimum safekeeping fee per security for the LuxCSD market is 2.50 EUR. Thus, this position is charged at 2.50 instead of 0.56 EUR. In addition, the minimum adjustment for the per line fee is 1.94 EUR, so the fee for customer A for LuxCSD ICSD debt is 9,668.61 EUR (9,666.67 + 1.94). The minimum safekeeping fee per security is charged, if the monthly fee per security position per instrument category per market per customer is below the defined minimum safekeeping fee per security.

Settlement services (section 2)

T2S settlement against counterparties in T2S (section 2.1.1 and 2.1.1.1)

Example 1: A LuxCSD 48-series account having an instruction (delivery against payment) against a counterparty in LuxCSD in EUR during day-time. The charge of the instructions consists of the following legs:

Service description	Fee (EUR)
Delivery versus payment	0.15
Daytime settlement process surcharge	0.03
External settlement fee depending on the market	As incurred

Internal and Bridge instructions (section 2.2.2)

A LuxCSD customer A (43-series accounts) settles 4,075 Internal instructions with LuxCSD (see table below).

Instructions customer A (CBL account)	Number of instructions	Instructions family group Z	Average deposit value (EUR million)
French debt internal instructions	2,000	French debt internal instructions	15,000
German debt internal	1,000	German debt internal	7,000
French equity internal	500	French equity internal	2,000
Italy equity internal	575	Italy equity internal	2,500
Total	4,075	Total	26,500

Step 1: Determine the applicable average price

In order to determine the applicable average price, the appropriate sliding scale rate has to be applied by using the family group number of instructions, as follows:

Family group volume of number of instructions		Price	Number of instructions	Monthly fees (EUR)
From	To			
1	250	2.25	250	563.00
251	750	2.00	500	1,000.00
751	1,500	1.55	750	1,163.00
1,501	2,500	1.20	1,000	1,200.00
2,501	10,000	0.75	7,500	5,625.00
10,001	25,000	0.60	15,000	9,000.00
25,001	50,000	0.55	1,500	825.00
Total			26,500	19,375.00
Average rate				0.7311

Step 2: Calculate the monthly fees

Based on the average price calculated in Step 1, the monthly fees for customer A can now be calculated by multiplying the number of instructions with the average price:

Instructions customer A (CBL account)	Number of instructions	Average	Monthly fee (EUR)
French debt internal instructions	2,000	0.7311	1,462.26
German debt Bridge	1,000	0.7311	731.13
French equity Bridge	500	0.7311	365.57
Italy equity	300	0.7311	420.40
Total	4,075		2,979.36

External instructions (section 2.2.3)

External instructions between a LuxCSD 43-series account and a French domestic counterpart account.

Customer A has 50 external instructions on French debt securities with a Clearstream customer:

Service description	Volume	Price (EUR)	Fee (EUR)
External French Debt instruction (first tranche)	35	22.00	770.00
External French Debt instruction (second tranche)	15	18.00	270.00
Total	50		1040.00

Price for reported items (section 5.1.5)

Example: A Family group consisting of LuxCSD 48-series accounts (48xxx) and LuxCSD 43-series accounts (43xxx) have the following reported items:

LuxCSD 48-series accounts (48xxx) settling on T2S	Items
Receive Free Confirmation (MT544)	70,000
Corporate Action Notification (MT564)	90,000
LuxCSD 43-series accounts (43xxx) not settling on T2S	
Corporate Action Notification (MT564)	130,000
Statement of Pending Transactions (MT537)	65,000
Total	355,000

LuxCSD - fee schedule

In order to calculate the average price per item, the aggregated Family volumes, excluding Receive Free Confirmations (MT544) on LusCSD accounts which are free, have to be taken into account in order to determine the average price:

With the calculated average price, the monthly fee per account can be computed:

LuxCSD 48-series accounts (48xxx) settling on T2S	Items	Monthly fee
Receive Free Confirmation (MT544)	70,000	Free
Corporate Action Notification (MT564)	90,000	5,292.00
LuxCSD 43-series accounts (43xxx) not settling on T2S		
Corporate Action Notification (MT564)	130,000	7,644.00
Statement of Pending Transactions (MT537)	65,000	3,822.00
Total	355,000	16,750.02

SWIFT data transport (section 5.3.1)

(Stepping scale)

SWIFT FIN messages will be charged per message according to the tariff mentioned in the table below. As soon as a volume band is reached the price corresponding to that volume band applies to the entire volume.

Number of SWIFT FIN messages customer A	Number of SWIFT FIN messages family group
25,000	855,000

Invoice code	Service description	Price (EUR)
	Monthly SWIFT FIN data transport messages	
	under 150,000	0.360
	over 150,000	0.300
	over 250,000	0.175
	over 500,000	0.1200
	over 750,000	0.0900
	over 1,000,000	0.0850
	over 1,500,000	0.0825
	over 2,500,000	0.0800

Since the Family group number of SWIFT messages is 855,000 (that is over 750,000), the fee to be applied per SWIFT FIN message for all accounts in this family group is EUR 0.09, for customer A, the fee to be charged is $25,000 * 0.09 = 2,250$ EUR.
