

# Clearstream Fund Centre – Distribution Support Services

Product information  
for asset managers

## The global solution for fund distribution

### Key benefits

#### Experience and capabilities

Proven knowledge and experience for distribution support services on a global basis

#### Exclusive access and visibility

Exclusive access to distribution partners making your funds visible for fund selection and net new money

#### Centralised contract management

Centralised contract management covering all current and future distribution partners of Clearstream Fund Centre

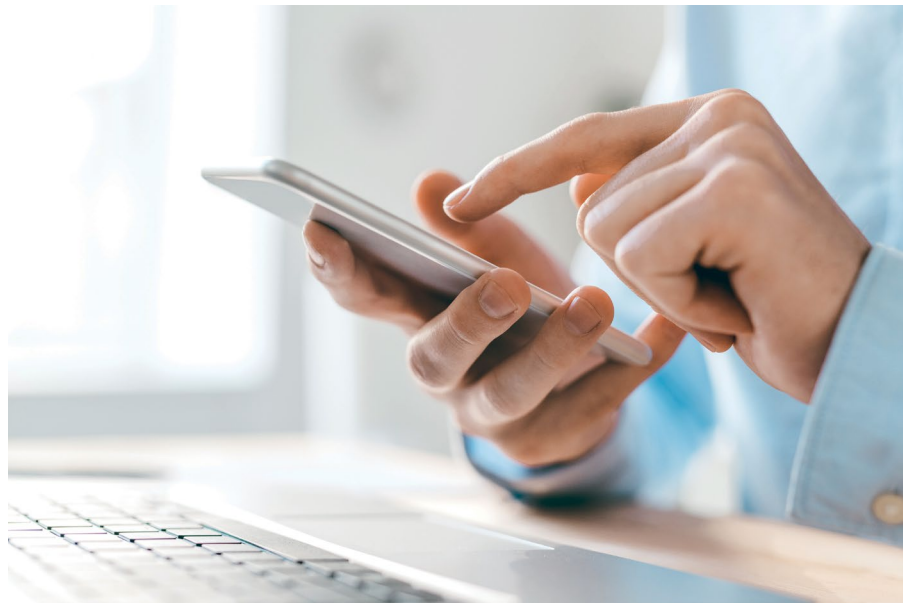

#### Increasing transparency with Provider Explorer application

Addressing asset managers' needs for more transparency on distribution partners and support of their oversight compliance requirements

#### Unique distribution network

Benefit from the Clearstream's international network of distribution partners

Growing demand for access and transparency on distribution partners as well as support for distribution oversight have increased asset managers' call for better online data, transparency and standardisation along the distribution supply chain. Our fund distribution support services are helping both asset managers and distribution partners to solve their challenges around fund distribution.

Asset managers are looking for streamlined, faster and cost-efficient solutions around distribution contracts, distribution commission management, reporting transparency and all respective services for distributing funds.

At a glance, Clearstream Fund Centre's capabilities and offering cover centralised global distribution contract maintenance and distribution commission management, support of AML/KYD on the selection and recurring monitoring of distribution partners as well as transparent reporting on the distribution activity.

Clearstream Fund Centre opens the doors to more than 300 distribution partners – mostly banks and insurance companies – particularly in Europe and Asia. Additionally, Clearstream Fund Centre offers, through its fund distribution support platform, a full range of services dedicated to asset managers.

The dedicated service offering to asset managers is available directly through the affiliate Clearstream Fund Centre AG.

# Suite of Fund Distribution Support Services

Clearstream Fund Centre offers a wide range of fund distribution support services built on its proven track record and solid expertise around global fund distribution and long-term client relationships. Provider Explorer for asset managers and Fund Compass for distribution partners are advanced web-based applications for global distribution support services.

### Distribution agreement

As one of the largest fund platforms worldwide, Clearstream Fund Centre's central position between more than 300 distribution partners and more than 400 asset managers is unique. In addition, Clearstream maintains a wide distribution network with leading distributors globally, and with a focus on Europe and Asia. Clearstream Fund Centre proposes a dedicated global distribution agreement, increasing efficiency around agreement management and simplifying contract maintenance.

### Fee management

Clearstream Fund Centre shields asset managers from the market increasing complexities and resource

intensive requirements of managing fees for multiple counterparties by centralising the fee management process. Distribution fees received from asset managers are paid out to distributors on a quarterly basis – accompanied by comprehensive and transparent reporting.

### Distribution transparency

Asset managers benefit from unique distribution transparency on their funds covered under a global distribution agreement. Clearstream Fund Centre offers reporting of historical as well as current distribution per distribution partner at asset class level. This allows asset managers to gain a deeper understanding on its distribution activity.

### Provider Explorer

Provider Explorer is an advanced web-based platform application for asset managers. The online platform allows asset managers to efficiently and professionally manage the distribution relationship as well as to access transparent information on distribution partners.

### Due diligence support

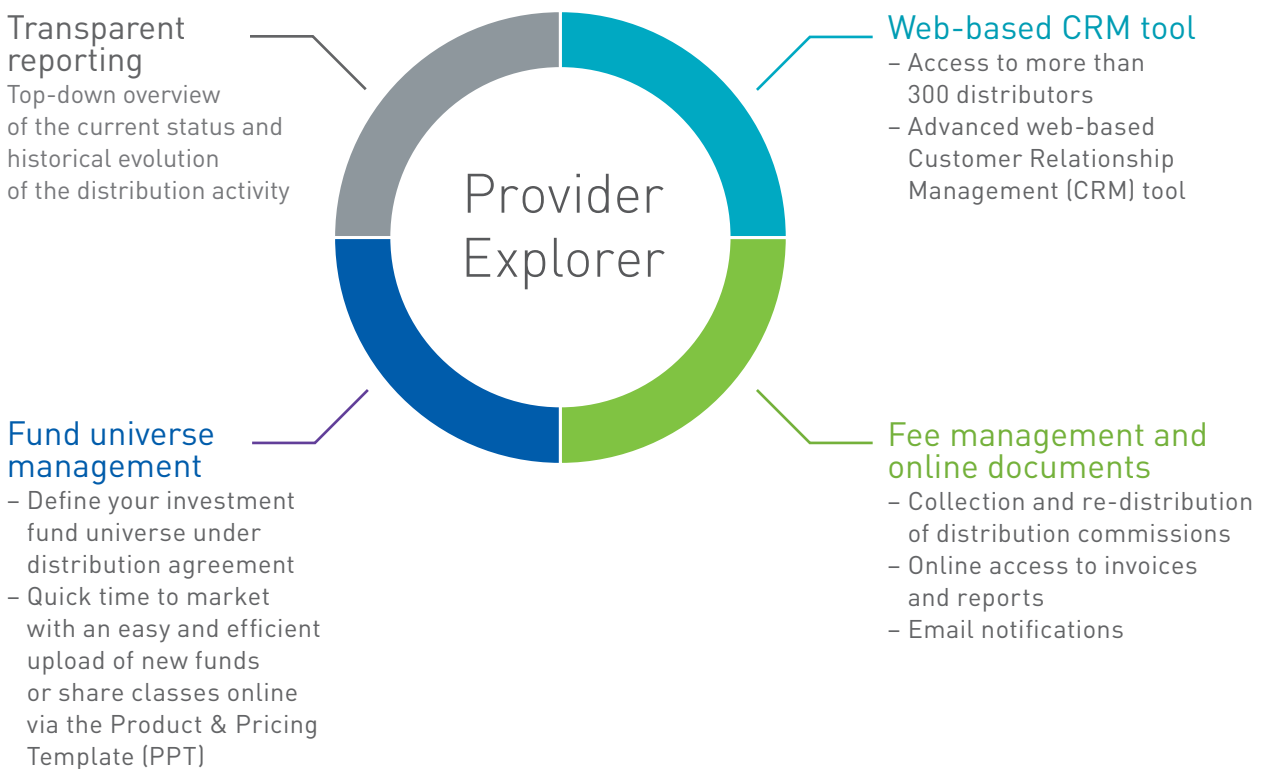

Clearstream Fund Centre pro-actively informs asset managers about its selection and recurring monitoring of distribution partners and supports questions or on-site visits in order to support asset managers' Know-Your Distributor (KYD) compliance requirements.

---

# Provider Explorer

The Provider Explorer online application allows asset managers to efficiently and professionally manage the distribution relationship as well as to access transparent information on distribution partners.
